Expert Led Co-Parenting Resources

As a leader in co-parenting communication, we look for every opportunity to advocate for and partner with the legal community and family-centric professionals to help build the strongest network available. Our credibility matters, and we achieve that through meaningful relationships with experts and organizations on the front line.

How We Began & What Lies Ahead

In 2010, after an attorney faced a courtroom judge displeased with the lack of co-parent communication and unreliable records, he was forced to think outside the box. With no success in finding a service to facilitate better co-parent interactions, he created his own platform, later partnered with two software engineers for product enhancement, and the rest is history.

Over 15 years later, TalkingParents continues to be a leader in the space. Through perpetual innovation, profound vision, and deliberate leadership, our efforts remain focused on preserving harmony for families across the world.

One-Of-A-Kind Identity

To help eliminate confusion, the correct spelling of our name is “TalkingParents” as a single word, with a capital “T” and “P.”

The TalkingParents logo and color palette are unique to the brand image we use across our communications. We kindly ask that our logo remain consistent and free of edits, changes, distortions, recoloring, or reconfiguration to avoid confusion and sustain recognition.
